Easy selection of HGT and HE heaters for a radiator

Water content [liters]		Radiator output [W]		Recommended heater HGT, HE		Orifice type
min.	max.	min.	max.	[W]	L(mm)	
1,5	3,0		350	300	340	R 1/2
3,0	4,5	350	550	600	390	R 1/2
4,5	7,5	500	850	900	440	R1/2
7,5	8,5	700	1050	1200	470	R1/2
8,5	10,0	900	1300	1500	520	R3/4
10,0	18,0	1050	1800	2000	570	R3/4

If the radiator's parameters exceed the range given in the table, seek advice on the proper selection of HGT and HE heater with the seller or the manufacturer. Note: before purchasing a heater, make sure if it fits the radiator's housing. Length of heaters (L) is given in the table.
